The New Hampshire Department of Transportation announces a Public Informational Meeting will be held Wednesday, March 3, 2004 in Chichester to review and discuss proposed improvements to the intersection of US Route 4, Main Street and Horse Corner Road.

This project involves continuing the existing two through lanes in each direction through the intersection, and signal upgrades to improve the efficiency of the intersection. Minor approach work on Main Street and Horse Corner Road, and sidewalk improvements are also part of the project.
